

Dwight David Eisenhower Army Medical Center

Fact Sheet

Our Mission: To provide World Class comprehensive and compassionate care to our Nation's Warriors, their families, retirees and all other directed beneficiaries, while maintaining unit and personal readiness to meet the demands of our Nation.

Our Vision: Maintain a trained and ready healthcare force that seeks, thrives on, and embraces change while accomplishing the health care mission, utilizing outcomes to drive medical decisions. We will excel at providing the best medical care anywhere to the best our Nation has to offer; her Warriors and families.

Population Enrolled: 48,489 Total (9,100 Active Duty Soldiers, 13,441 Active Duty Family Members, 20,063 Retirees and their Family Members, and 5,885 Active Duty Trainees who are included in the data but not enrolled) 61,868 Total Eligible Population *Data Source: FY09 M2 Database*

Facility: The original hospital was constructed on Camp Gordon in 1941. It consisted of 139 separate one-story buildings over 80 acres of land with 9 miles of corridors. The present consolidated building was constructed between 1973-1975. Dwight David Eisenhower Army Medical Center was dedicated on April 24, 1975, in honor of the former General of the Army and 34th President of the United States. The 14 story medical center measures 622,661 square feet and occupies another 314,011 square feet in outlying buildings on Fort Gordon.

Outlying Clinics: Southern Command (Miami, Florida), Fort Buchanan (Puerto Rico), Fort McPherson (Atlanta, Georgia), and Camp Shelby (Mississippi)
